EXPERIENCE

Freelance Full Stack Developer · Self-Employed

Sep 2025 - Present

- Delivered a paid MERN e-commerce platform for a local retail client (AKS Beauty Hut): product catalog, cart/checkout, authentication, and admin inventory panel. [Live](#) | [GitHub](#)
- Rebuilt interfaces mobile-first, reducing layout bugs and improving responsiveness across devices.
- Managed cloud deployments on AWS, Vercel, and Render, including environment setup, JWT-based API security, CORS, and database hosting.

PROJECTS

VAANI - Voice-First Civic Engagement Platform [GitHub](#)

React · Node.js · FastAPI · AWS Bedrock · LangChain

- Built a voice AI platform that lets citizens report civic issues over a phone call or WhatsApp in Hindi, English, and Hinglish, with no app download needed.
- Added geolocation-based routing to the right local authority, real-time status tracking for citizens, and an admin analytics dashboard.

FleetWatch - Multi-Agent Fraud Detection (RL) · Team Project [Live](#) | [GitHub](#)

PyTorch · Llama-3-8B · Docker

- Contributed LoRA fine-tuning of Llama-3-8B to a team RL environment with 5 progressive fraud-detection tasks and a 7-signal anti-gaming reward system, achieving an 11x improvement over baseline.

Vibely - Real-Time Social Platform [GitHub](#)

Next.js · TypeScript · Node.js · MongoDB

- Built Socket.io messaging with typing indicators, media uploads, and dual auth (Google OAuth + JWT); deployed on Vercel (frontend) and Render (backend).

Pharmily - Healthcare Management System [Live](#) | [GitHub](#)

MongoDB · Socket.io · Firebase · Render

- Built anonymous emergency SOS with geolocation routing to the nearest hospital, real-time admin alerts, appointment booking, role-based portals, and live bed availability search.

HACKATHONS & ACHIEVEMENTS
